

Letter of Support

The World Education Forum Tasmania has demonstrated a practical commitment to establish a Trust Fund for the training of teachers for schools in the Tanzanian region of Tarime, through The Peter Hewitt Care for Africa Foundation and Rotary Australia World Community Service.

The UNESCO Chair in Education in the Hong Kong Institute of Education offers its support and endorses the activities conducted to educate the public and to raise funds for the training of indigenous teachers to further the quality of education in Tanzania, in line with UNESCO's Millennium Development Goals for the 21st Century.

The celebration of World Teacher's Day is specifically given endorsement as a worthy event that will promote the value of quality education and encourage teachers in Australia to celebrate their privilege and to facilitate the education of colleagues in disadvantaged and marginalised countries.

Yours sincerely,

Rupert Maclean 馬敬言 教授 AO,
Chair Professor of International Education,
UNESCO Chair in TVET and Lifelong Learning,
Director of the Centre for Lifelong Learning Research and Development,
The Hong Kong Institute of Education
